## ACADEMIC PROJECTS

- [Personal Library Management System](#)

Developed an interactive web application using **Streamlit** and **Python** for managing personal book records. The platform enables users to track books they have read or plan to read, rate each book, and monitor their reading progress. Designed a user-friendly interface to log data while providing insightful visualizations of reading habits.

## NON-ACADEMIC PROJECTS

- [autoTracc](#)

Developed and deployed a **Streamlit** app on the Web to automate tracking attendance and exam schedule, and calculating GPA and CGPA for the students of PSG Tech by scraping the students data from the college's student dashboard website, using **requests** and **beautifulsoup** libraries.

- [Calorit](#)

A simple calorie tracker website, built using vanilla **Javascript** and deployed on GitHub Pages. A calorie report is generated based on user input to show the calories consumed and calories burned. Under development.

## EXTRA-CURRICULAR ACTIVITIES AND ACHIEVEMENTS

- Completed Google Advanced Data Analytics Professional Certificate from [Coursera](#).
